# The Animate Difference

**A**ddressing the technology requirements of law firms demands focus and expertise. As legal technology specialists, it is our business to support the unique technology needs of the legal profession.

Founded in 1994, Animate Systems supports dozens of law firms. As law office network specialists, we understand the distinct needs of legal practice. We offer a

proven approach that maximizes reliability and reduces costs. You can count on us to support your entire network, or to implement special projects as needed.

We provide technology solutions that match your priorities. Our experience, professionalism, and technical skills ensure you receive the highest level of computer support.

# The Animate Approach

**E**xpert network support is one of the most important investments a law firm can make. Animate has developed a proven approach that ensures maximum network reliability and cost-effectiveness:

## **Standardized Technology**

Risks associated with IT networks are eliminated by using standard and well-tested solutions. Proven technologies from reputable vendors promote reliability and ensure that installation and support are highly efficient. This focuses technical labour on activities that maximize the value of your technology investment.

## **Technology Planning**

The cornerstone of our relationship with our clients is our annual no-cost client planning meetings between firm members and senior Animate staff. To ensure continuing value from your investment, Animate takes a long-term view on technology recommendations to address both present and future needs. Our extensive experience with numerous

firms enables us to bring insight and perspective to the planning process.

## **Pro-active Support**

Strategic computer support addresses problems before they begin. Animate's *best practices* recommendations help you get the most value from your technology. Our standard service includes regular maintenance visits to test system backups, virus signatures, service packs and server health. After each visit, you receive a written status report detailing the work performed.

## **Superior Technical Staff**

Our greatest asset is our people. Animate invests in recruiting and retaining only skilled and experienced staff who understand your technology and practice needs. Our rigorous recruitment and retention efforts assure the best technical talent available.

# ■ Upgrades/Network Support

**S**ystem upgrades, coupled with expert support, offer improved productivity and reliability. Our extensive work with law office networks ensures you benefit from our accumulated expertise in building and maintaining dependable systems.

Animate Systems has developed a turnkey approach to network upgrades that maximizes reliability and cost-effectiveness while minimizing network disruption and costly downtime.

To protect your network, Animate offers expert technical support and data protection

strategies, including system backup and virus protection. To minimize the impact of major practice interruptions, Animate offers systematized disaster recovery plans for quickly restoring working systems and valuable information following a significant business disruption.

Rigorously following a detailed budget and implementation schedule, Animate's network upgrades yield predictable, cost-effective results. Our knowledgeable network support and planning ensure ongoing responsiveness and dependability.

# Application Solutions

Practice Management Systems /  
Document Scanning / Trial Strategy

**T**oday's firms increasingly demand software tools that enhance their effectiveness and productivity. Once a reliable network infrastructure is in place, intelligent integration of application software is the key to maximizing productivity at all levels.

Animate provides legal software and consulting services that meet the demands of exacting lawyers. From document imaging and case strategy tools to practice management software, we offer solutions that maximize efficiency and boost your competitive advantage.

Our consulting services include workflow analysis, software customization, training and technical services for applications including Time Matters, PrimaFact and CaseMap/TimeMap.

## Practice Management

Practice Management software promotes productivity by consolidating all contact, calendar, and client file information within a single application. Animate works with law firms to determine data collection, document production and file scheduling requirements. We install, customize and integrate the software and provide training to ensure it meets the firm's practice needs.

## Document Imaging and Retrieval

Document Imaging (scanning) improves efficiency by enabling firm-wide access to paper documents directly from the network. Full-text search and mark-up capabilities promote practice effectiveness. Animate provides system integration, workflow analysis, and training to all levels of staff.
